

YOUR OWN PRIVATE CONNECTION

Ethernet is private connectivity. This means that it is separated from any other traffic.

DESIGN FLEXIBILITY

Point-to-point, hub-and-spoke and any-to-any topologies.

GET WHAT YOU BUY

Ethernet is committed bandwidth, so you actually get what you pay for.

MAXIMUM SECURITY

MEF certified – meets strict security and compliance requirements.

ETHERNET PROTECTS YOUR CRITICAL DATA

CONNECTIVITY THAT'S FUTURE PROOF

Easy to scale up all the way to 10Gbps. Always able to meet your growing capacity demands.

RESILIENT BY NATURE

MPLS backbone makes sure you never miss a beat.

LOW LATENCY

Low latency routing and traffic prioritization. Perfect for latency sensitive applications.

MAXIMIZE EXISTING INTERCONNECTION POINTS

With MSOP you can use the same port for many services and compliance standards.
