

TRANSFORM YOUR BUSINESS IN THE CLOUD

Extend your network perimeter to the cloud with dedicated and private connections to AWS, Google, Azure, Oracle, and IBM – using Telia Carrier’s global backbone.

CONTROLLED CLOUD CONNECTIVITY

Using our direct connections to the major cloud providers, we provide you with a secure onramp to the cloud. Cloud Connect is a private and dedicated connection that bypasses the public internet – giving you more control of your bandwidth, with high-levels of security and reliability.

FLEXIBLE PRICING

We offer flexible pricing options to accommodate your changing bandwidth needs. You have the freedom to modify contract terms at short notice and configure your

connection to suit your business needs. The service options are easily accessible by using our online portal with simple purchasing options.

REACH MULTIPLE CLOUDS AT SCALE

Cloud Connect allows you to use a single port to connect to one or multiple cloud providers – making it a cost efficient way to scale cloud connectivity. Your bandwidth needs for cloud usage will always be serviceable as we operate with ample capacity to ensure our global backbone is optimized for highly scalable, burstable workloads.

BENEFITS IN BRIEF

CONTROL

Your traffic traverses our global backbone, bypassing the public internet. Providing a more predictable cloud experience.

FLEXIBILITY

Pricing model accommodates changeable bandwidth needs, with choice of 1Gbps and 10Gbps ports and freedom to change contract terms on short notice.

SCALABILITY

An abundance of capacity over our backbone to support bandwidth-heavy workloads.

DID YOU KNOW?

You can order your Cloud Connect service in less than 1 minute, using our online portal MyCarrier!

CLOUD CONNECT

TECHNICAL HIGHLIGHTS

We have built multiple direct interconnects in several regions to the leading global Cloud Service Providers (CSP). Telia Carrier maintains at least two diverse interconnects to each CSP service region. Customers can configure their connectivity based on the level of redundancy needed. Most customers prefer to use a single port with dual connections to their cloud provider and benefit from our diverse interconnections to provide full redundancy from the Telia Carrier's backbone.

Option 1: A single physical port & cloud connection

Option 2: A single physical port & dual cloud connections provide full redundancy from Telia Carrier's backbone onward.

Option 3: Dual physical ports & cloud connections provide full redundancy from customer's network onward

USE CASES

BOOST INNOVATION WITH CLOUD

On-premise technology can sometimes stand in the way of innovation. Cloud Connect provides acts as an innovation pipe to organizations requiring a reliable connection to access cloud-based technologies.

MIGRATION TO CLOUD NATIVE INFRASTRUCTURE

Cloud Connect is ideal for organizations looking for a secure and reliable migration environment, while they transition towards a cloud-native infrastructure.

SIMPLIFY MULTIPLE CLOUD CONNECTIVITY

Cloud connect provides organizations with a simplified, flexible and secure connection to multiple cloud providers. Enabling better opportunities to scale and control cloud usage in a multi-cloud environment.
